Director's Message

Message From The Director

The vision of Anjali Tutorials is to encourage children in their social, emotional, physical, intellectual and spiritual development. We do this with a developmental style of teaching which translates into hands-on learning. We believe children learn through doing. Our goal is, while meeting their educational needs, to fill the days with unconditional love for your children and family.

As a team, we hope your children are filled with wonderful memories of Anjali Tutorials classes and traditional special events. Your children and family are important to us and our door are always open to you!

Our Mission

Education now-a-days become too much expensive. Day-by-day it is going beyond our capacity. In most of the cases after spending high amount of money we are not getting proper education. It is not only taxing the pockets of the parents but also make the students' future bleak. Under these circumstances OUR INSTITUTE (ANJALI TUTORIAL) is preparing the students for any competitive examination at a very moderate rate without compromising with the quality. We realise the problems of students and parents & eager to help.
